

Third Quarter Student Council Challenge

Mathematics

In order for student to be recognized during our Third Quarter, they must meet the requirements by March 14th. I will start testing them the first week of the month. For Kinder through Second, I will have flash cards. Third, Fourth and Fifth grade will have a multiplication sheet. Third grader will have five minutes to complete it with 100% accuracy. Fourth graders will have four minutes to complete it with 100% accuracy. Fifth graders will have three minutes to it with 100% accuracy and be able to identify prime numbers provided in a list of numbers.

Grade	Category
Kinder	Single digit addition with a sum of 10 or less. Examples: $1+7=8$ or $2+3=5$ or $0+7=7$
First	Single digit addition with a sum of 18 or less. Examples: $9+9=18$ or $1+6=7$ or $7+7=14$
Second	Know multiplication facts for 0,1,2,5 and 10.
Third	Know multiplication facts for 0,1,2,3,4,5 ,9 and 10. 100 problems in 5 minutes.
Fourth	Know multiplication facts for 0 – 12. 100 problems in 4 minutes.
Fifth	Know multiplication facts for 0 – 12. 100 problems in 3 minutes. Identify prime numbers
