Yearbook Covers

By: Rebecca Rinker and Victoria Duran

This week at lunch time publications went out and asked you what color cover you'd like to see on the year book.. Most of the sixth graders voted for the color red, followed by black, then white. Most of the seventh and eighth graders voted for white, followed by black, then red. This may not be the color of the yearbook since Publications has the final say in all yearbook decisions, but we want to see what you thought the cover should look like. Thank you for the feed back, we appreciate your input and participation in Publications events.
